Sourcing Content

Current Master's of Science Computer Science student with a background in web design and development. Recent Responsive Web Developer certification. Over two years experience hand coding HTML, CSS, and JavaScript websites and using version control. Working diligently to become a competitive Front End Developer.

## Experience

### Technical Support

*Innoventive Software, LLC May 2020 - present*

- Lead author testing FrameForge software on both Windows and Mac OS for upcoming VPAT certification for web accessibility.
- Migrated old customer knowledge base to new knowledge base and set up the front end for a new ticket system platform
- Manage and create international marketing campaigns with PHP List including generating over 600 business sales leads
- Developed and tested new product offerings prior to release to assist development team in bug identification.
- Created support documentation that empowered and enabled user community to extend skills, leverage system features and find resolutions to questions.
- Resolved diverse range of technical issues across multiple systems and applications for customers and end-users internationally.

### Front End Web Development

*Freelance and Projects, November 2018 - present*

- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices for their needs.
- Wrote clean HTML and CSS code, integrating design, and optimization according to web development plans.
- Identified and resolved website performance flags to optimize speed.
- Tested site compatibility across multiple browsers and devices.
- Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings.
- Migrate site from one host provider to another and configure admin account and set up SSL and WordPress site
